Jennifer A. Creedon -My long-standing relationship with CMCFUCU began when I was in college when my dad, a former CHMC employee and member of the CMCFUCU, introduced me to some of the many benefits banking with CMCFUCU has to offer. In 2008, when many of the bigger national banks started looking for overt and covert ways to increase their profits, I decided to entrust all of my banking to the CMCFUCU and have never regretted the decision. I have been an employee of CHMC since 2002, when I began my professional career as a psychology fellow in DDBP and continued to work as an outpatient staff psychologist until 2008, when I switched divisions and started work as a staff psychologist in BMCP doing psychological evaluations for the inpatient, residential, and partial-hospitalization programs located at the base, College Hill, and Green Township locations. I also became an active member of the Cranio-Facial Anomalies Team, where I work closely with the multi-disciplinary team to ensure the needs of the many families affected by a large variety of cranio-facial anomalies are met. On a personal note, my husband and I have been married for 8 years and have 4 beautiful children who range in age from 6 ½ years to 6 months.
